

BGC Plasterboard

BGC Plasterboard is purpose designed as a complete wall and ceiling lining system, suitable for all residential and commercial requirements.

BGC's proven manufacturing techniques along with world class plant, equipment and facilities ensures that all its Plasterboard products meet the stringent demands of regulatory bodies throughout Australia.

The company's pursuance of excellence also ensures BGC Plasterboard products and accessories are of a premium quality.

The massive Plasterboard complex at Hazelmere, Western Australia, comprises a 32,000m² building which houses the plasterboard and cornice manufacturing plants, a warehouse facility that accommodates 1 million m² of plasterboard products, the administration centre and a counter sales and display area.
